

Trolovelses- og vielsesregister

Byrum / Hals sogne 1720 - 1799 og Vesterø sogn 1646 - 1799

Dette register skal ikke bruges i stedet for kirkebøgernes trolovelses- og vielsesoptegnelser , men som et supplement. Ideen er at man hurtigere kan finde frem til den eller de personer man søger. Når man har fundet den pågældende person i registret er det hurtigt at checke i kirkebøgerne.

Forklaring til de enkelte kolonner :

Navn :

Alle navne er opstillet alfabetisk, med efternavn(e) og evt. kaldenavn(e) nævnt først.

Man kan finde den enkelt person under alle navne der ikke er fornavne. F.eks Christen Melchiorson Cortsen, findes under Cortsen og under Melchiorson.

Enkelte står nævnt kun med fornavnet. Det er i de tilfælde hvor det ikke har været muligt at tyde efternavnet, eller hvis det ikke er nævnt.

Efter nogle af personerne står der en parentes med et bogstav i. F.eks :

Hyldebusk, Niels (**C**) - Hvilket fortæller at Niels Hyldebusk har optrådt som **coveringsmand** (forlover) ved en trolovelse eller en vielse det pågældende år

Irum, Niels (**Ø**) - Hvilket fortæller, at Niels Irum er nævnt i forbindelse med en trolovelse eller en vielse, **uden at være direkte part deri**.

Alle personer der er nævnt uden parentes (dog undtaget en parentes med et "?"), er dem der bliver trolovet eller viet.

Af hensyn til alfabetiseringen af navnene har jeg trukket flere navne sammen.

F.eks Laurs, Lars, Lauritz, Laurids findes alle under Laurids(en), Laurids(datter)
 Lydich, Lych, og lign. findes alle under Lyder(sen), Lyders(datter)
 Ole, Olle o.lign. findes alle under Oluf(sen), Oluf(sdatter)
 Smed, Smid og Smidt, findes alle under Smed
 Bircheren, Dammen findes hhv som Birch og Dam.

Andre navne har jeg behandlet på samme måde.

Sogn :

Angiver sognet hvor trolovelsen eller vielsen er indført i kirkebogen.

År :

Trolovelses - eller vielsesåret.

Generelt :

Et "(?)" angiver en tvivl.

Enten har det ikke været muligt at tyde den pågældende tekst, eller jeg har tydet den, men er stadig i tvivl om det er gjort rigtigt.
